

Part 2:

a b c d e f g h i j k l m n o p q r s t u v w x y z

q g u s i w d j l y r a o h f b z v x c k m p n t e

'r h z n d i c q v m z h z l q'

Our logic is that the alphabet lines up with the key +2, it is a continuous loop ('z' wrapping back to 'a')

Part 3:

Data Breach:

Adult Friend Finder

Oct. 2016

Accounts impacted: 412.2 million

The breach took place in October of 2016 but went weeks without being announced. The site was unlike other dating sites of the time, this site was a site for casual hookups and so as you can imagine, there were many things the subscribers and former subscribers may not want leaked

to the public. Adult Friend Finder is a subsidiary of FriendFinder, who also suffered a breach less than 2 years prior of the same magnitude
